MONDAY MORN'O, March 29, 1858.

We hear a had been a first of "Yunkee tricks," and a great dotted Southern house. There is trickery in both sections of the country, and there is a high ence of home in both it but we think there is as much cheatingfur the single fraud of false packed collons as there is no all the Yankee pullers, and all the Yankee Contrivances together.

Thus saith the Providence Journal, speaking against "King Cotton" with an auducity that would be quite refreshing, if it were not quite so amazing. It was well that the Journal was so considerate as to insert that little item about the "high sense of honor' in the North, and the South ; it qualifies the assault upon King Cotton materially. Wonder if they have read Senator Hammond's speech, up therein the What-Cheercity? Why won't the Journal give its readers a few choice extracts from that distinguished specimen of Southern eloquence, intelligence and modesty?

One of the largest and most experienced man-ufacturers of the Blate, informs up that a lot of handsone cotton of high grade, which he lately opened, deposited one pounds of smal, per tade, under the picker.—Prov. Jour.

to Take care there, Mr. Journal ! don' you know that "Cutton is King?" or have n't you read Senator Hammond's procla tion? If you go on in that style, you will he set down as a rebellious subject, and your case will have to be attended to.

We have all heard of sanded sugarwhy not sanded collon, as well? Of the two, we should think the latter decidedly preferable | as it could, at worst, only grate the back a little, if worked into the texture of ones nether garment-whereas the mere idea of actually swallowing a lot of sand with your ten and tonst, is enough to "make one crawl, all over." So dont, if you please, make a furs about the paltry trifle of nine pounds of sand in a bale of cotton.

Up The Journal complains that no tare is now allowed on cotton, as formerly-that the article is outragaously sandy, and the manufacturers have to "pay twelve cents a pound for rope and baggage." Pretty hard, that-but not so hard as it would be (according to Ex-Gov. Hammond) "if no cotton at all were furnished for three years, He says Old England would topple headlong, and carry the whole civilized world with her P

By substituting the word Providence for truly Lie."

By substituting the word Providence for "Washington" the above extract taken from an article on lawyer law making in the N. Y. Tribune, will fit the latitude of R. Island exactly. There at this time probably not less than one builted and lifty lawyers Pettiloggers in our little territory, who yearly draw by Hook or by Crook not less than two thousand dollars each on an average from the pockets of the industrious classes of the community making in the aggregate ly known to your agricultural readers that three hundred thousand unliars. The minds of the greater part of these are so thoroughly debauched from the Jemoralizing nature of their pursuits and profession, that they right and wrong otherwise than by rules of self interest and expediency. And yet these are the men whom we permit not only to administer, pervert and explain our laws but also to make them. So long as this state of things is allowed to remain we may be certain, that neither Lawyers nor their emoloments, will decrease in Rhode Island. It is now nearly nineteen hundred years ago that the whole tribe were consigned to pendition for "rejecting the counsel of God" and "lading men with burdens grivicous to he barne," since which time they seem to have devoted themselves more entirely than ever to the service of their master, "the father of Lies," who it is suggested was probably present in person with some of his peculiar favorites that were selected by the people of this State to concoct the revised statutes of 1827, by which little process through his assistance a fund was established for the exclusive benefit of the Rhode Island beach and bar amounting to millions of dollars. It is opined that the old one maintained his equanimity tolerably well through all the stages of these proceedings, up to the time that the General Assembly voted to pay his favorites some five thou-sand dellars for their mischievous work whereupon the old gentleman could refrain no longer but rushed hack to his honocstead

RICH GLOSSY HAIR COMPLETELY PRESERVED TO THE GREATEST AGE

And who that is grey would not have it restored to former color? or bild, but would have the growth restored, or troubled with dands off and iteding but would have it removed, or troubled with servicely, seads head, or other cruptions, but what would be cured, or with sick head ache, (nouralgias) but would be cared? It will also remove ult pingles from the fice and side. Prof. Wool's Hair Restoration will do all this. See circular and the following.

will deall this. Sectionlar and the following.

ANN Harror, November 5, 1856.

Proc. O. J. Woon—Dear Sir: I baveheard mach said of the monderful effects of your Hair Restorative, but heaving been so often cheated by queckery and quack mostrome, hair dyes, Ao., I was disposed to place your Horrarities in the same eategory with the chousand and one loudly trumpeted quack remedies, until I met you in Lawrence county found menths since, when you have no ruch assumence as induced the trial of your Restorative in my family—first by my good wife, where hair had become very thin and entirely white, and before very thin and entirely white, and before very thin and entirely white, and become very thin and entirely white, and become very thin and entirely white, and beautiful brown color, and had thickened and become beautiful and glossy, upon, and entirely over the head; she continues to use it, not timply because of its beatliful influence upon the head and mind. Othersoftray fountly und friends are using your Restorative, with the happiest effects; therefore, my skepichen and doubts in reference to its character and value are entirely removed; and I can and do ustal condimity and confidentially recommend its use by all who would have their hair restored from white or grey (by reason of slexmess or ago,) to original color and beauty, and by all young porsons who would have their hair heautiful and glossy.

PRIEND WOOD:—It was a long time after I saw you at Blistidd before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I cot it we concluded to try it on Mrs. Mann's hair, as the stucest test of its power. It has done all that you assured no it would do; and tillied to try family and triends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Ago n, very respectfully and truly yours,

CARLYLE, ILL., June 28, 1852.

I have used Prof. O. J. Wnoad's Hair Restorative, and have admitted its wonderful effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and, I have no doubt, pertamently so.

THE LIVER INVIGORATOR.

PREPARED BY DR. SANFORD.

PREPARED BY DR. SANFORD.
Compounded Entirely from Gams,
To One of the best Purgative and Liver Medicines now before the public, that sets as a Cathartic, easier, milder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, exting first on the liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes relectually, without any of the painful feelings experienced in the operations of most Catharties. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

The iottowing remedies are offered to the public as the best, most perfect, which medical science can afford. Ayrk's CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known.—Other preparations do more or less good; but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to uproof disease beyond any thing which men have known before. By removing the obstructions of the internal organs and simulating them into healthy action, they

disease beyond any thing which men have known before. By removing the obstructions of the internal organs and stimulating them into healthy action; they removate the fountains of life and vigor—health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagoristic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint; see his bent-up, tottering form straighten with strength again; see his long-lost appetite return; see his 'ammy features blossom into health. Give them to some subsess with strength again; see his long-lost appetite refoul blood has burst out in scrotula till his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drunched inside and out with every potton which ingenuity could suggest. Give them to him whose angry humors have planted rheumatism in his joints and hones; more him, and he screeches with pain; he too has been soaked through every muscle of his body with liniments and salves; give him these PILLS to purify his blood; they may not cure him, for, alsa't there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him.

Have you the less actious symptoms of these distempers, they are the easier cured, Jaundice, Cestiveness, Headache, Side cheb. Heartburn, Foul Stomach, Nausea, Pain in the Howels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout, and kindred complaints all arise from the detangement which these PILLS rapidly cure. Take them put to have been perseveringly, and under the counsel of a good Physicien if you can, if not, take them put of the painted they must hourse in the houses for Stomach, and the detaressing, dangerous diseases they cure,
